### **Sable Offshore Corp. Statement on Court Hearing**

**SANTA BARBARA, CA** — A Santa Barbara County Superior Court judge Thursday denied a request from the California Coastal Commission (Commission) for a temporary restraining order (TRO) to halt Sable Offshore Corp.'s (Sable) maintenance and repair work in the coastal zone.

Sable Vice President of Environmental and Governmental Affairs Steve Rusch offered the following statement in response:

“Sable Offshore has long held that its repair and maintenance work is fully authorized by existing permits approved by both Santa Barbara County and the California Coastal Commission. The Commission once again sought to overstep its jurisdiction and shut down hundreds of jobs. We’re pleased the Court rejected the Commission’s unreasonable request.”
